"Freedom or death" 1821

... The borders of the mind to defend to death,
our GI, there are no borders
for no one ...

Friday, March 25, 2016 / 4:50 a.m.

The barbarians and fools Europeans,

as when exposed!; Until when will we express our stupidity and our cultural failure, despite of our growth over the footprints of unsurpassed even my ancestors! So many thousands of years and our political leaders, still criminally facades, barbaric, uncivilized, not susceptible of learning! Why did the foolish do screwed up everywhere? Why behave overall stupid politics, while we manage quite well in science and technology?

Sink for example my country and other regional economic decline and poverty, while with our money, your own products we bought, not ours. We did wealthiest, not us! Not to understand that, now that we were poorer, we buy more from you? You further increase your production and you still reduce more your unemployment? Ie collectively as communities and not individually, have become richer than if we are your good customers!!! ;;; ...

And refugee, what fovokratia is one that has overwhelmed you? Why target only the despicable and Lieutenant border closures, which indicates complete failure, disorderly retreat rather than confidence and power? Why not targeting active and long-term plans? What foolish fear? The schemes from which these people are incomparably worse than ours and it just treat us as their only way out. Especially this apparent omnipotence of Islam in these countries, is the Achilles' heel of these schemes. Exactly suffer amazingly unique. There suffering objectively, it is their open social wound.

The barbaric powers and ridiculous schemes do not fall outside military invasions or civil incitement, but from within, culturally, with the awakening of the peoples. If we want to throw salt in the wound, let's show these wretched people, especially the weakest, women and their children what is best, what it means to live our free there between and then, all the dirty work will make alone! Who does not want blind the light!? These immigrants and refugees, is the nuclear bomb against these regimes. It is true blessing god providential weapon! The cheapest and most effective for the treatment of any kind or tragicomic terrorism and graphical ISIS.

With a simple dish, which at the bottom after all these years to steal them, with a smile, a little care and affection, this bomb will return back powerful and will explode, destroying everything than you cannot destroy all the arsenals Earth together! They are able to flatten anything that uprooted them, drove them from their lands and their own. Let them become the Prometheus, let us give them our light (if left us say) and they, know then do fire and Belote.

Our culture is our Trojan horse indeed, this time, not even the hapless draw him within their walls. It can operate preferentially in our home, in our home court...! ... Play good ball then systematically

organized, comfortable and not to be afraid foolish! Do not make fools your cultural origins from Greece
... Standing your damn civilized and who take the vow! ...

... UNLESS TREMBLE AND FOR YOUR OWN PERSONAL CHAIR ...

These desperate, directed you to take advantage of your social policy and bonuses, which to us have massacre brazenly and let's not forget again, that your standard of living on their farms and ours owe it! Therefore they do not ask you something absurd, but very few of those who cheat us!

Course and among them seep and parasites and criminals, but I am absolutely sure that will cost us no more than you, or that there will be more dangerous than our ridiculous leaders, our own criminals, traditional oikogeneiokratikous collaborationist and paidarelia that we sometimes manage and exploit our conscious, professional, clear and proportionate given course of our amazing democratic tolerance! But for you, we do not build barbed wire, not slamming you into ghettos (hot spot) as it should do, but your vote and over! We stoically ensure your challenging livelihoods against us lest lose your breed expecting patiently and patiently sometime civilized.

So if you want to close the tap of this invasion, instead of physically weak closure of vast our European borders, hospitality and train culturally these people to turn consciously against those responsible for their plight, if of course you have the basic cultural conditions to make something like that! If only we can accept as many as possible, and hope for our boomerangs back at those fools tramps their countries!

Uh ... and as for the threats to our demographic deterioration, "**BURGOS TO MERKEL**" and marry it with their supreme imam to learn what it's like woman and to see if we remarry none of them even for a test! ...

I tried to muddy sympathy to you in the right direction, hoping that I addressed in civilized people, not in primitive barbarians. In enlightened politicians (... may we ...), say the exceptions of the current **homo idiot** (*sapiens*) ...

Respectfully yours,
for the **OLYMPIAKO PANTECHNON**
