THE NEW GREECE (GEONIA)

Today toured social media image with the student who marched wearing headscarf. This student originates from Egypt. The Holy Ibrahim speaking on CNN's camera said he is very proud of its participation in the parade.

"It's a proud day in Greece and I participate today as parastatria first time and I feel very good," he said and stressed that "come from war and you must accept them with love because they have no second choice, do not know what else to do"

(Auxiliary like I commented on various negative posts)

... Impressive that a Muslim anthellinida and ... (says), he put aside the religious beliefs, nationalism and deigned to honor the country that hosts it and especially our flag and let us have a cross, unlike something ours ... k(a)lopaída that with every opportunity to burn proud of their achievement!

Who ... ellinaras would do the same in her native !; And I'm not talking about the event that will force it to do so, and the refusal would indeed heroism, but in case you would have to choose to do voluntarily as this girl. And of course bravo to those teachers who respected the cultural identity and is not required to send a headscarf and long skirt to look like ... our own k(a)lokorítsa, vying for more leg and chest (as if talking about chicken) this sacred day of our national holiday. And especially because they avoided completely (probably not understand it themselves), because if the demanded it and he found the courage to tell them not, they will have turned into a real heroine, a cultural bomb and the damage that would make us this or that puts your mind how much would wretches! ...

Never seek by force to soften a soul. There is absolutely no case to succeed! The passionate souls, is like the red-hot iron, fire and larvae, not caught. But only then they are soft. Only then can you work them and to do what you want, to the Formwork exactly as they like! But you have to be a master, Great Psychotechnitis and when to bring in equal measures and you then just throw them in the water of your society to drown along with others and steeled. If you make a mistake and throw before finally no longer reworked! Plain untamed atsalokarfa, neither fakir not sit on them! ...

Remember us, it took us 400 years to shake off the Turkish veil! ...

The Games of the soul foolish, is not katostaria Marathons. They want their way and talking about greeeeat Crafts! ... These teachers are Greece and not the rest ellinarades. If there is a real weapon against Islamic fanaticism, it is the women and children. If they taste our freedom and our good culture rather than the bouzouki joint, land and the **FOVOKRATIAS** merchants, when they return to their home countries, will compete and there the same conditions and essentially become, the bombers, the "**WHITE CHIRES**" against Islam itself. But if you do not go back there because it now resembles hell themselves, or because they have done here, we again the winners we'd be on their progress, not their home countries that will lose them permanently. It happens that with our own expatriates and scientists emigrating en masse and we lose them forever.

Fear not foolish! We Greeks today, we have the unique opportunity and blessing to culturally conquer the world, not militarily. Sometimes we got to India and all these people, pride in our path from there! Look at their European colonizers. Conquer the world and now have neither one colony and they passed, they left nothing standing! That valuable they found the stolen or destroy it. Everywhere they hated them because they were uncivilized, barbarian, rude, destroyers, and the Mediterranean, Europe and Asia, is full of precious Greek monuments, which the guard as the apple of an eye! ...

Jihad all these, we **CULTURAL COUNTERATTACK**. The overwhelming our paper foolish, our passport to eternity! And above all, an attack on their Achillios heel, their wives and their children. There literally bleed. Add salt to art that the wound. Each **Grain** of salt to immigrants and refugees, on the one nostimefei their lives and makes them more adaptable in our societies and on the other, makes the barbarians of their countries to writhe in pain. Do kiotevete foolish, not our time yet come and will never come to Greece! Price ... our fearless ancestors sacrificed to we have today, and even ... **CONSUMER luxury ... FEAR! ...**

Here is the essence and the challenge for us. Essentially the perseverance of these people in their values, is impressive, admirable and honors privately. They do not do anything different from what we do and we or our expatriates worldwide. Somehow, without realizing it, our attack and culturally as they do ours in other countries. Behold the glory field brilliant! We claim that we have compelling roots, that we were the best, the chosen of the gods! So Come and prove it! And through this process, a unique opportunity to actually become better because we fell with his face to the money, the sureness, the predator, in submarines, in SIENENS in euroloans, the stock exchanges, in filth, in eurobriefs much in rempelio threw in this area!

Today tested our cultural resistances, we get into orbit cultural war and fear in the face of this situation, is not consistent with anyone Greek! Not we can to shield our incomparable history to kiotevoume, closing our borders! **Greece's borders are the borders of the earth!** ... War is foolish, the joy, the celebration of the Greeks!

WHEN THE GREEKS WAR, FEAST!

No wonder we were the only ones on the planet, we celebrate the openings, not the ends of wars! ...

Why; Why there baptized our youth. There swell the groin of male pride. There are born and fit only heroes. There are drying up from the ridiculous myxoklamata eyes of girls and become real women, Bouboulina, Melina and mothers. Enjoy foolish, celebrate, fight! Finally fight again! And the best war this one that fell to us in our history because it is not with swords, but with sharpened souls! With minds razors vertically cutting the hair, not horizontally! And he very Craft this thing ore Greeks, true greatness if you do not have it anymore ... not blame us OTHER! ...

... Afraid foolish? Who are you afraid of? Hungry and miserable in the East? Those who do not have the Sun fate, or the fluffy Brussels? Then in front of the fuller, the gravatomenous, the velvet of the Northern suburbs of large lounge, the Cities', at euroaxestous, the bastards politicians and nianiara, ensconced in their system you do? In? ... If this is Greek and our European culture, to boil it! In hell an hour later! ...

Counterstrike foolish, **CULTURAL COUNTERATTACK!** ... Do not be afraid foolish! **ANYONE!** Pity them! For crying all of them. Opposite to our evil good and for those who believe in gods, to which will find an ally and their god! ... **CIVILIZED YEARS** in all of us, it is our wish that from now on our national anniversaries. So to finally settle down and fraudulent souls of our ancestors sometime! ...

And do you escape something very essential, crucial! In this scarf who saw the face of the girl, you did not see anything! Your blindness! It was a heroic act of what he did. Open your eyes wide open and this scarf, see our Greece, the country that teaches culture, grandeur, courage and admire! Not the girl who starred in the parade but Greece! Our country that taught once again around the world ethics and how are the civilized countries. Not like France, which banned by law the scarf! Who, France!; The supposed country of enlightenment and the French Revolution! ... Shame! ...

This little girl has shown the best way possible, that our country is fearless in the face of barbarian threats and picturesquenesses! How did ... we spelled properly! ... This girl moved around the planet, the message that the Greeks are so fearless, so invulnerable, so unique, that did not feel the slightest threat from the presence and beliefs! But the most valuable of all, how

THIS SAME NOT OUR FEARS! ...

This will tell foolish civilization, Greek culture! It is many years in Greece and excellent in our

schools. How many conversions to Islam have children of our own foolish e? How many? How many of our children read the Koran because of it? While I wanted did not want, he was in course of religious and natural and learned for the Twelve and for Christ, Socrates, Plato, Aristotle. And yet learned the most elementary, ... that the Earth moves! ...

None of us exist as ambassador since 1821, failed so many and important for our country, than they managed this girl within 10 minutes parade! Wallpaper foolish advertising, which are the Ministries of Education, Culture and Tourism to exploit and make cultural advertising campaign ... our ministries means, sleeping, their beatific, useless, the ... staff!? ...

So to think foolish, Greek, intelligent, diplomatic, WAR, POLITICS, CIVILIZED! ... So to handle such situations and not velazontas like frightened sheep ...

... GREECE IN LOVE MY, CIVILIZED YEARS YOU HAVE ...

... war is life
and war joy, celebration.
If you do not hear the clang of arms,
simply means that ... died! ...
